

## Alien Escape

### Scripts

1) AdsManager – This script controls the admob ads , with this you can use banner ads , normal and reward video ads.

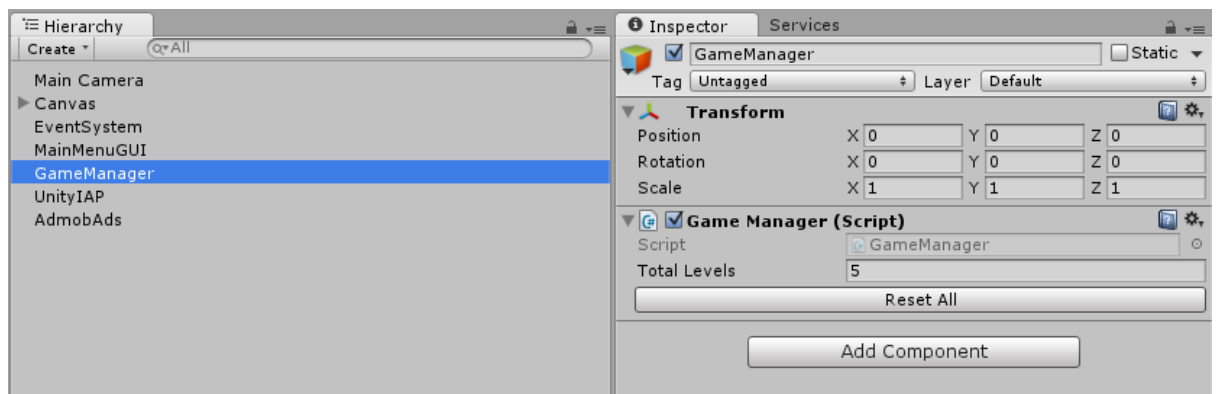

To use the ads you have 3 methods

ShowInterstitial() , ShowRewardBaseAds(),  
ShowBannerAds().

You need to call this methods in other scripts to show ads eg: AdsManager.instance. ShowBannerAds();

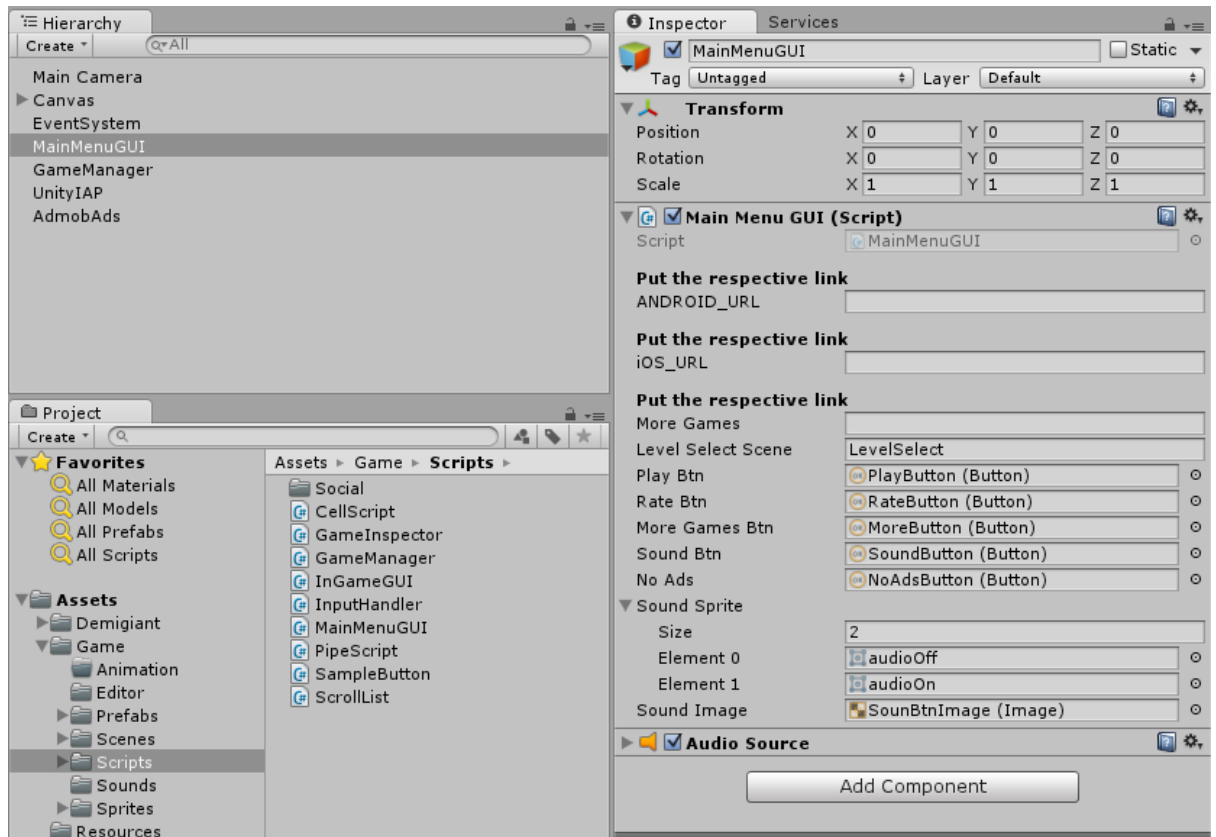

2) GameManager:- This script controls the complete game from start to end , it saves and loads the data , controls the music and no ads button , it's the most important script in the game.

## GameManager GameObject

3) MainMenuGUI: - This script controls the main menu button functions eg: rate , noads etc.

## MainMenu GameObject

4) ScrollList:- This script creates the button in the level menu scene.
